I PLEDGE TO  
SAVE MY 20%

SAVE  
YOUR  
20%

We all use energy every day – at home, at work and when we travel. To generate that energy, fossil fuels (coal, oil and gas) are burned. This produces 'greenhouse gases' – in particular carbon dioxide (CO<sub>2</sub>) – which are contributing to climate change and damaging our environment.

If you save just 20% of the energy you use every day, you can help prevent climate change.

There are simple, easy steps that you can take to make your home more energy efficient. Doing so reduces your home's carbon dioxide emissions, and can save you up to £250 a year on your energy bills.

# MAKE A PLEDGE TODAY TO SAVE YOUR 20%

For free, expert energy saving advice,  
phone 0800 512 012  
or visit [www.saveyour20percent.co.uk](http://www.saveyour20percent.co.uk)

**I pledge to save my 20% and will do the following to help me do this... (please cross all that are applicable)**

- Install cavity wall insulation
- Install loft insulation
- Buy an energy saving recommended appliance
- Fit an energy saving recommended lightbulb
- Turn my heating down by one degree
- Not leave appliances on standby
